Project manager: RNDr. Jana Reslová

Studio Luce

✦ Photo studios

- 1) Shooting the posters for the festival *Profumo di Nozze* (Scent of marriage)

Studio Luce

- 2) Creation of logo for the festival *Profumo di Noze* (Scent of marriage)

- 3) Creation of logo for the new hotel M²Arte (Square meter art)

Associazione Etnografica

- 1) Creation of the posters and invitation cards for the festival *Profumo di Nozze* (Scent of marriage)

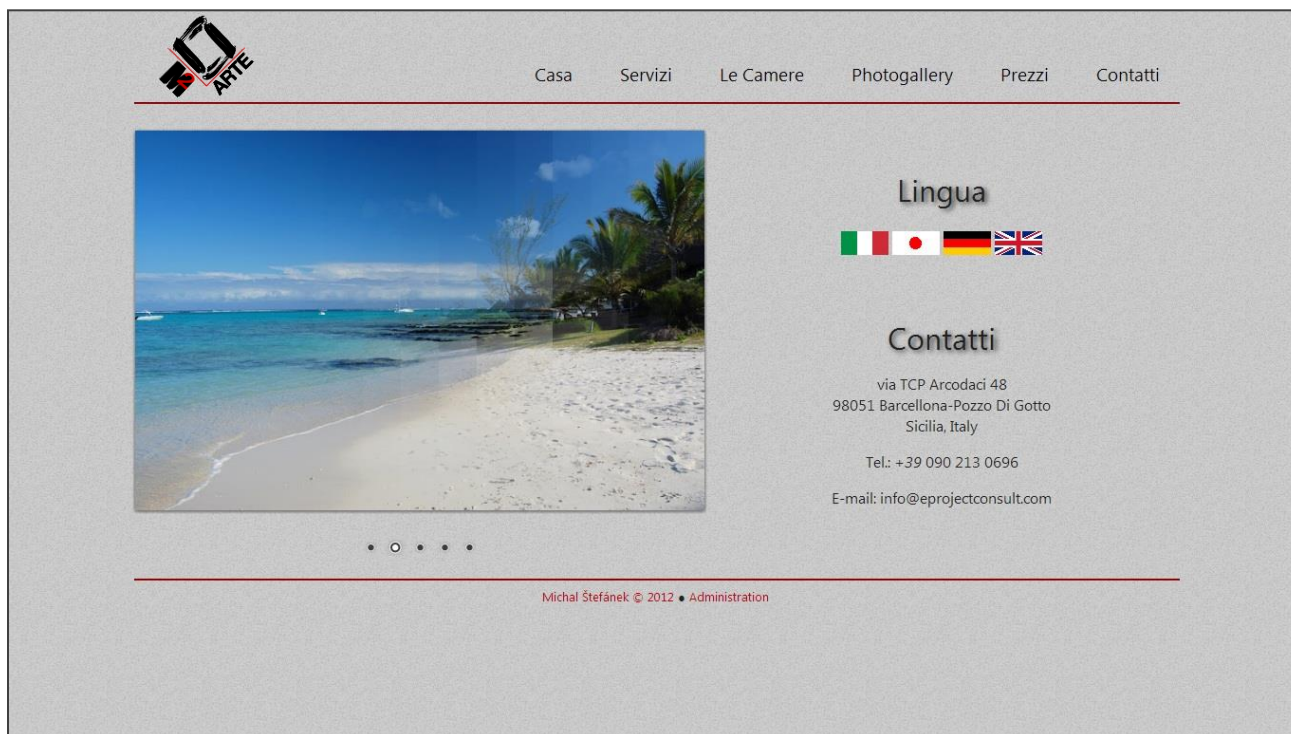

Associazione Etnografica

- 1) Creation of the posters and invitation cards for the festival *Profumo di Nozze* (Scent of marriage)

Associazione Etnografica

2) Creation of web sites for the new hotel M²Arte (Square meter art)

Cad Design

- Students task – creation of new motives for housing design using typical Czech theme – Czech cut glass

At first I sat before computer and I surfed on the Internet to find sources, which are typical for the Czech Republic and could be useful for my work.

TYPICAL CZECH PRODUCT: GLASS

When I did it, we chose one of typical Czech products, concretely Czech edged glass.

After that I converted images of glass to shapes as vectors in Adobe Illustrator CS6.

When I had finished some of them I started working on different wallpapers.

I made about fifteen different wallpapers with different ideas. Also I changed colors of glasses, their stroke and position.

Then, I gave two pictures of room from different views and my work lead to apply the wallpapers of glasses on the walls of that room.

From this time I was working mostly in Adobe Photoshop CS6. I covered these walls and made five different versions of them.

SHAPES OF GLASSES

Then, I chose best pictures of the new designed room and make a collage from different views and from the best of these ideas which I made before.

FINAL WORK

After that I printed these images on a paper. This printer used professional software for printing to make the pictures with exactly the same color as we had chosen in the Photoshop.

The final print is waterproof and I got it as remembrance of my stage in Italy.

THE PRINT

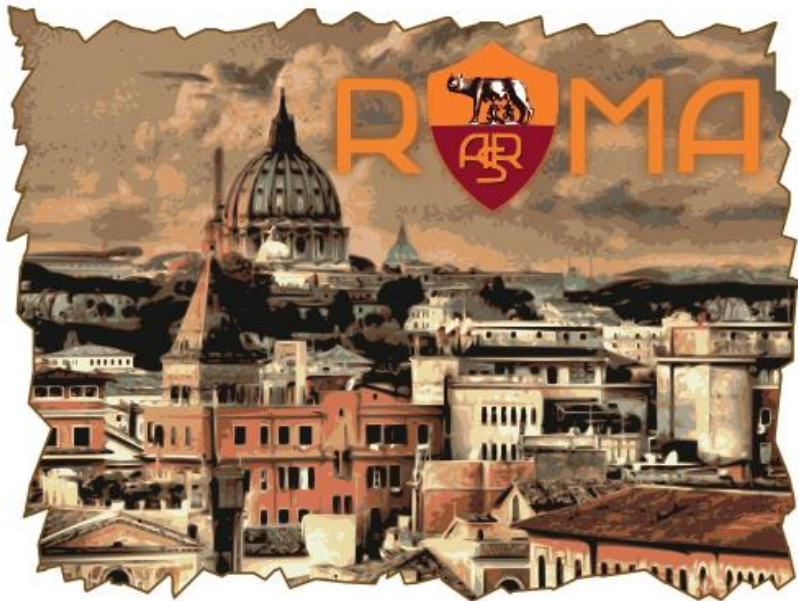

PLOTTER

I think that I have get much useful experience, met very interesting people and seen their breathtaking works such as redesigned and modernized all types of furniture and materials.

Grafica Idea – our students works

- ✦ Lay-outs for tourists T – shirts printings
 - Rome
 - Venice
 - Florence

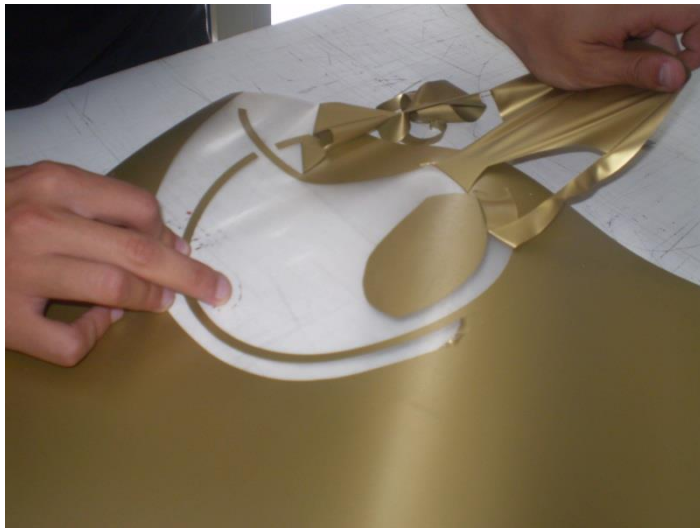

Grafica Idea – our students works

- ✦ Sicily design for all our group T-shirts

AG grafica

- ✦ T-shirts design
Shirts for couples

AG grafica – our students works

✦ Cards, posters and labels

✦ Company logos

✦ Discount coupons

And what next?

We are looking forward to next praxis for further students groups.
